

Need a Face Lift *for* Your Property? Think Awnings

Like a fresh coat of paint, custom awnings and canopies will enhance your building's curb appeal, charm and value. Awnings reduce air conditioning costs and they add instant beauty and elegance. They might be just the face lift your property needs.

We thrive on solving awning design problems! We'll help you select awning colors and styles to provide just the right solution. Awnings can be the difference between a 20% vacancy rate and a waiting list.

Today's awning fabrics are long-lasting, require very little maintenance and offer excellent design options. Graphics such as lettering and logos are individually customized to meet any property's requirements. Durable metal frames provide a wide variety of shapes that will last a life time.

Eide Industries offers a full line of manufacturing, installation, and permit services. We'll even install new fabric covers on existing frames.

Since 1938, Eide has been the name to count on for commercial and industrial canvas awnings, canopies, and covers throughout the United States.
